

The Sins of the Parent FREQUENTLY FALL UPON THE CHILDREN

Especially terrible does it seem that children should be born into the world—as they frequently are—having in their little innocent bodies the germs of Specific Blood Poison, or, more frequently, Scrofula, which is, as a rule, the result of Specific Blood Poison in some ancestor.

It would be an outlook almost too intolerable to contemplate if such scourges as scrofula and other forms of blood poisoning were incurable.

Yet for long centuries these diseases have baffled the most skillful medical science.

Men and women in the past have resorted to cures for these diseases which were almost as obnoxious and dangerous as the disease itself.

The taking into the system of mercury and other mineral drugs cannot be too strenuously condemned and avoided in such cases.

That a cure, absolute and sure, can be effected is evidenced by the following letter, telling of the result of taking

FOERG'S REMEDY

Ocoona, Va., Aug. 15th., 1903

To Whom It May Concern:

We have two little twin girls that were badly afflicted with Scrofula. After trying three of the best doctors we could employ they continued to get worse all the while. I was advised by a friend to try Foerg's Remedy, so I procured one bottle, and it has cured them sound and well. This was four years ago, and no sign of return, so I cannot say too much for this medicine, for I think it the best blood medicine in the world.

MINING NOTES.

Illinois Miners Return to Work.

Springfield, Ill., Sept. 22.—About 1500 of the 1800 chain machine miners in the Chicago and Alton subdistrict, who have been on a strike since July 1st, have voted to return to work. The mines at Thayer resumed operation today. Monday morning the men at Virden return to work. Tonight, at Auburn, a meeting of the strikers was held and they resindicated their former action by voting unanimously to return to work, and the Auburn mines will resume tomorrow morning. This leaves only the men at Divernon on strike. There are about 300 men affected there. They have stubbornly declined to accept the agreement to use 2 pounds of powder and to dispense with the shotfiring.

Seranton, Pa., Sept. 25.—One of the largest coal operators in this section, who has just come from Philadelphia, where he had a conference with President Baer of the Reading, declared unhesitatingly and for publication that the operators would not, under any consideration, grant the demand of the mine workers for an eight hour day, and that they propose to agree only that the present agreement shall be continued. Announcement to this effect would be made, he said, after the miners held their convention in Shamokin, December 14th.

Barboursville, Ky., Sept. 25.—A new coal mining plant that will add considerably to the output of Knox county, is now being installed by John G. Matthews, president of the First National Bank, in the Ely Hollow country, nine miles north of here. Railroad a little over a mile in extent is nearly completed and a \$30,000 mining plant is now being installed with a view of getting an output of 500 tons daily.

In an opinion by Judge Settle, of the Court of Appeals, at Frankfort Friday the Webster Circuit Court in the case of Nancy J. Lemore vs. Sebree Coal and Mining Company was reversed. The case was for \$2,500 damages, and was instituted by the widow. Appellant was killed while an employee of the appellee. The case is remanded with directions to the circuit court for a new trial.

The West Kentucky Coal Company will build four hundred houses near Sturgis as soon as suitable bids are received. The buildings to be erected will be one hundred two story brick houses, one hundred two story me houses, one hundred one

story brick and one hundred one story frame houses. They are to be built for the convenience of the miners employed by the company.

A switch is to be constructed from the R. L. Forsythe coal mine to that of the Providence Coal Company at Providence if arrangements can be made. Material has been placed on the ground at the mine for the construction of a new coal tippie also.

Mr. A. E. Jacobson, mine foreman at Wheatcroft mine in Webster county, has resigned and will move to Providence, where he expects to reside in the future.

Lee Hawkins, who has been working at No. 9, has been transferred to the Barnsley mine.

Maj. F. B. Harris, superintendent of the Diamond mine, Mortons Gap, attended the Big Webster County Fair at Sebree Friday.

Mr. Hirman Bivens, of the Hecla mine, was in Madisonville last Thursday on business.

Peculiar Strikes.

Terre Haute, Ind., Sept. 20.—The mine mule has caused a number of peculiar strikes in Indiana. Today 125 men were out at mine No. 6, and it was a sympathetic strike for mules, the men contending that the mules did not get enough to eat. The manager of the mine promised to attend to the case and the men returned to work.

Heretofore, strikes have grown out of alleged ill treatment of mules. One strike which kept 700 men idle for weeks hinged on the question of what constituted cruel whipping of "Old Ben," a notorious mule. At the end of two weeks "Old Ben" died from the blows. The mule driver's discharge was then recognized by the men as justifiable and they returned to work.

UNION SLUGGERS

One Of The Instigators of Slugging System Pleads Guilty.

Chicago, Sept. 20.—With sensational suddenness to-day President George Meller, of Carriage and Wagon workers' Union, No. 4, who is being tried with twelve other union officials and members on a charge of criminal conspiracy, withdrew a plea of not guilty and entered a plea of guilty.

Meller, it is alleged, was one of the instigators of a system of "slugging" practiced on nonunion workmen. Counsel for the other defendants were thrown into confusion by Meller's change of front. They met the situation, however, with a charge that Meller was a paid spy in the employment of the Carriage and Wagon Association. Meller is expected to take the witness stand against his fellow defendants.

WANT WAINWRIGHT TO RETURN HOME

Indicted St. Louis Millionaire Has

LIVES IN LUXURY IN PARIS,
BUT IS HOMESICK FOR AMERICA

Influential Friends Journey to the
French Capital to Induce Him to
Return—Present Prosecutor De-
clares He Will Bring Him to
Trial On Old Indictment.

St. Louis, Sept. 25.—Judge Franklin Farris, who went to Europe less than a month ago in company with Halsey C. Ives and Judge Henry Bond, is on the ocean returning to St. Louis. Until he lands the result of the mission which took him abroad will not be known. It is reported on excellent authority that this mission was to persuade Ellis Wainwright to return to St. Louis.

Wainwright is a St. Louis millionaire who was indicted when Gov. Folk

ELLIS WAINWRIGHT.

was prosecuting attorney, on the charge of furnishing money to bribe members of the municipal assembly to grant a street railway franchise.

When Wainwright was indicted he was abroad, and has remained in foreign lands ever since.

Circuit Attorney Sager, when told of the rumored mission of Judge Franklin Farris to Ellis Wainwright, in Paris, said:

"I will certainly prosecute the indictment of Ellis Wainwright to the utmost of my ability. If he returns to America he will certainly be put on trial. Nothing has been lost by the lapse of time. The evidence to convict him is still at hand and can be produced in court at any time."

Having a Good Time, But Homesick. Wainwright, it is said, has grown tired of travel, and longs for America. He has done Egypt, has traversed Syria and Arabia, and crossed the Caucasus into Russia, and has become interested in the gold mines of Siberia. To reach the mines he traveled in sledges over snow, and hunted wolves and bears in the Siberian wilds. He returned to Europe by way of Constantinople, spent some time in Greece, and from there to Paris, where he opened offices. He has purchased a large house and lives in luxury.

Considerable magnificence characterizes the life of the exiled St. Louisian in the French metropolis. He is a widower without children. He has been taken up enthusiastically by French aristocrats and is freely entertained at the chateaus in the suburbs adjacent to Paris. He entertains lavishly.

Many St. Louis people have called upon him in Paris. He never discusses the boodle question, it is said.

Who Has Learned?

Will a long suffering public learn wisdom and prudence now and become provident? The long periods of zero, suffering to which a large portion of the public is subjected annually should teach a lesson, and the people should rise in their might and change the worn, old adage about hay to read:

Get Coal While.... The Sun Shines!

If those who do not live on a coal foundation had filled their coal bins and coal houses liberally in the warm weather, when coal and hauling is cheap and the roads good, and had not, like the grasshopper, fiddled the summer away without providing against the winter's rigors, they would not have had to dance and burn back fences for warmth during the cold snaps and coal shortages of the past few years, which all remember so well.
